Our Grant lies in the North-Eastern part of Texas, between the limit and 34th degrees of Latitude North, and 19th and 12nd degrees of Longitude West, from Washington; beginning on the south side of Red River, at a point 12 miles east of the False Ouachitta. Junning thence due South 100 miles, thence East 164 miles, thence North 100 miles, thence West 164 miles to the beginning, having a front on the meanderings of Red River of nearly 300 miles; and includes within its limits the upper and lower Cross Timbers, and the head waters of the Brasos and Trinity Rivers, the Trinity being navigable for Steam Boats of light draught, from the interior of the Colony to the Gulf of Mexico, into which it empties, some 25 miles from Galveston, and Red River, to the Mississippi, affording an outlet for the surplus productions of the country. This portion of Texas is peculiarly adapted to the growth of wheat, experience within the last two years having tested the fact, that it will produce 40 bushels to the acre, weighing 65 to 1e pounds to the bushel. Indian corn, rye, barley, oats, sweet and arish potatoes, peas, beans, melons, garden vegetables of all kinds, cotton, hemp and tobacco, and the celebrated muskeet grass which covers the prairies and upon which cattle subsist, and keep fat during the winter, and require only to be occasionally salted and kept together, to rear them in great numbers.

Colonel William Myers, who removed there from Garrard County, Ky., last fall, says, in a letter dated 8th May, 1847.—

'I will not venture to tell my friends in Kentucky that the land here was better than the best land in Kentucky, because they would not believe it; but now I assert it, for the soil is deeper, being in many places five feet, and the kindest land to work I ever put a plough in. I verily believe that around the forks of the Trinity, lies the largest body of first-rate land in America."

Let no Emigrant loose sight of the important fact, that our contracts with the Government of Texas expire on the 1st day of July, 1848, and that he must not only be in the Colony, but that he must have selected his land, built a house or cabin thereon, and be residing therein with his family by that day;—one day after that date, and the opportunity of getting lands for nothing is, perhaps, lost for ever. Persons desiring additional information, by addressing the undersigned Trustees or either of them, post paid, shall receive prompt attention.

Mr. BOYD moved to amend the bill by adding a should not be vested in the corporation, till the like should not be vested in the corporation, till the like section divorcing Catharine Lamaster, of Sheldy sum of \$150,000 had been actually subscribed and paid in.

Mr. SPEED said the road in its present condition was estimated by practical engineers to be worth the sum of \$150,000, and to put it in a condition for use, after the expiration of the present lease, it would require an appropriation of the same amount. was ordered to a third reading.

Mr. EVANS, from the committee on Education,

The question was, whether the State should make that appropriation, or permit individuals to subscribe The question was, whether the State should make and the State retain her interest in the stock of the new road, to the amount of the value of the road in its present condition. The bill had been perfected by persons well acquainted with the provisions necessary for its successful prosecution, and he was opposed to attaching any amendment that would embarrass the bill, and defeat its passage.

Mr. COMBS said the road was now in an unsafe condition to travel on, and must soon be utterly useless. He exhibited statistics in relation to the railroads of Massachusetts and other eastern States, showing that the increase of travel, was in proportion to the facilities offered therefor. He showed that railroads were made along side of the best water navigation in the east, and even with that competition, the railroad stock was the most profitable investment. He insisted, that the proposition now made for the passage of this bill, was the easiest, surest, and safest manner for the State to save to herself the value of the road, in its present condition, and which was "growing beautifully less" in value every day, and but a little more time would find the road in a perfectly worthless condition, and an opportunity was now offered to make it of some service and value to the State, and he hoped it would be embraced by this House.

Mr. GAINES thought it nothing but fair, that the stock as was given up by the State. He was not called upon now to decide upon the propriety of erecting a new road, but only to make a safe and profitable disposition of the present road, and he wished to place private stock holders upon an equal footing with the State.

Mr. SPEED was opposed to the amendment, because he believed its adoption would defeat the passage of the bill, or at least, the benefits which the State would otherwise derive from its passage. Mr. NEWELL was opposed to the bill itself, be

cause the State had spent some \$800,000 upon the Kentucky river, and by this bill, the road was to be continued on to Louisville, and come in competition with the river navigation, and reduce the amount of revenue derived therefrom. He was opposed to the bill for this and other reasons.

Mr. TOWLES could see no propriety in the amendment, as the bill was sufficiently guarded without it. He believed the proposition now made Mr. A. YOUNG-Religion-a bill for the bene- by this charter, was the best disposition that could profitable, both for the State and the other stock-

holders in the road. He concurred with the gentleman from Louisville, (Mr. Speed,) that the adoption of the amendment would make the bill a perfect nullity. The argument used by the gentleman from Harrison, (Mr. Newell,) might have been applicable against the granting of the charter for the Railroad between Frankfort and Louisville, but was of

no force at this time. Mr. COMBS explained the proposed course of the road, and the manner of running the inclined plane. He opposed the amendment and advocated

Mr. HUGHES said the charter of a railroad from here to Louisville might interfere with the profits of the slack water navigation, but such was not the proposition; but even if it was, has the State the right to protect herself in a monopoly! He was opposed to giving the State, or any individual, any exclusive privileges. The proposition was not to charter a railroad to come in competion with the Kentucky river navigation.

Mr. NEWELL said when he spoke of the State, he meant the whole people, and to save any privilege to the State, was to save it to the whole people

Mr. WINTERSMITH was going to vote for the bill, but he would so guard it as to save to the State the assurance that the road should be completed .-He would give to the old stock holders the preference in subscribing for the stock in this road. He was opposed to the bill because the whole right, title and interest of the State to the road, was vested ipso facto, by the signature of the Governor, in the private individuals who were to become stock holders in the road.

Mr. COLLINS had not intended to say any thing upon this bill which had been perfected by two committees of this Legislature-one of the Senate and the other of this House. He believed this bill would serve as a feeder to the river navigation instead of curtailing its revenue. The charter for the road to Louisville was now a law and could not be altered, and the passage of this bill would not affect it in the

Mr. BULLOCK advocated the bill as being the only feasible method by which the State could save the value of the present road. He advocated it at

some length Mr. TOWLES advocated the bill at some length,

and opposed the amendment. Mr. HARDY was opposed to the amendment and also to the bill as it now stood. He was in favor of making the stockholders pay in the same amount as was relinquished by the State pari passu.

The yeas and nays being called on the adoption of the amendment, it was lost 53 to 31. Mr. WINTERSMITH offered an umendment saving to the State the right of lien upon the road to the amount of stock owned by her till the amount

of \$200,000 was subscribed and paid in by the private stockholders; adopted. Mr. HARDY moved to strike out the 27th sec-Mr. GAINES offered a slight amendment to the

### THE IMPEACHMENT CASE.

Representatives, on fifteen different articles, charg-ing as many different offences. There was no eviing as many different offences. There was no evidence introduced by the managers, on articles 4, 6, 7, 8, 10, 12 and 13, and they were abandoned. The Court found the respondent not guilty on articles 2, 3, 5, 9, 11 and 15, and guilty on article 1; and for which he was adjudged to pay his own costs, and any balance of the costs of the Commonwealth, which had not been paid under the law of the present session, authorizing its payment out of the Treasury. The charge of which Duff was found guilty, was for failing to renew his official bond, at the period required by the act of 1810. Though the statute requires all officers, the tenure of whose offices the transmission of a project of a treaty of peace are good behavior, to renew their bonds every five years, and for failing, they commit a misdemeanor in office, still, it is an offence which has not heretofore been regarded as of sufficient importance to authorize an impeachment before the Senate. This statement is made, that the public may understand the true character of the charge upon which Duff was found guilty by the High Court of Impeachment. A considerable portion of each session of the Legislature, is consumed in passing laws giving Surveyors, Clerks, &c., further time to renew their official bonds. The officers making the applications, notify said Constable or other officer in writing, that he had committed the same offence for which Duff was found guilty.

earbellishmeats.

THE Columbian Magazine enters upon a new year with prospects increasingly bright and promising. It has attained a proud position in the public estimation. The press universally, and with generous kindness which the Proprietor gratefully acknewledges, has borne testimony to the superiority of its literature, and the profusion and elegance of its embellishments; while its immense and constantly increasing circulation, shows that the press has but attered the general sentiment, and affords such agreeable evidence that it has met the expectation of all, that it seen as to the Publisher almost unnecessary to speak of the future. It cannot be necessary to say much of the conduct of the literary department of the Columbian. The gentlemen who have so long and satisfactorily discharged that duty, continue their efficient services, and the Publisher is happy to announce that he has made arrangements with severai of the most distinguished writers in this country, whose regular contributions will enrich the Magazine; while, as heretofore, the merit of an article, quite as much as the fame of its writer, will be the passport to its paas much as the fame of its writer, will be the passport to its pa

the Magazine; while, as heretofore, the merit of an article, quite as much as the fame of its writer, will be the passport to its pages. Elevaded sentiment and pure morality will distinguish all the literature of the Columbian Magazine.

The paper on which the Columbian will hereafter be printed, is manufactured expressly for the purpose, by one of the largest and mst highly esteemed makers in the Union, and the typographs will be of proportionate neatness and elegance.

The publisher respectfully solicits from authors, artists, subscribers and agents, a continuance of the confidence hitherto so generously awarded the Magazine. As an earnest of the liberality with which he intends to conduct that department of the work, he has prepased, at a large outlay, a magnificent full length Portrait of Washington, price two dollars, in stipple and mezzotint, which will be presented, gratis, free of postage, to every yearly subscriber to the Columbian Magazine, who will send to the Pablisher \$3 in advance, post-spe paid. It is an engraving of such superior merit, and the subject is of such profound and abiding shaterest, that he cannot doubt that the gift will highly gratify the receiver, and largely swell the list of his subscribers. He anaexes, also, the following unusually liberal terms of publication, it being understood that the subscriptions are in cash:

EXTRACT,

Is an invaluable remedy for Epileptic Fits, or Falling Sickness, Convalsions, Spasms, &c.

It is well known, that from time immemorial, Physicians have pronounced Epileptic Fits incurable. It has baffled all their skill, and the boasted power of all medicine, and consequently thousands have suffered through a miserable existence, and at last yielded up their lives on the altar of insanity. Physicians of every age have pronounced this disease incurable. The proprietors of the Vegetable Extract, however, leel no delicacy in saying, that it can be cured. They would, therefore, respectfully invite Physicians and all others who are interested, to examine the testimony which is here offered. If it is deception, let it be exposed; but if it is true, then in the name of humanity, no longer let it be said that Epilepsy is incurable.

HART'S VEGETABLE EXTRACT.

HART'S VEGETABLE EXTRACT,

HART'S VEGETABLE EXTRACT,

For sxiteen years, has been tested by many persons who have suffered with this dreadful disease, and in every case where it has had a fair trial, has effected a permanent cure.

Col. Denslow, of Yonkers. New York, states that his daughter has been afflicted with Fits for more than 9 years, and has been cured by the use of the Vegetable Extract.

Mrs. J. Bradley, 115, Orchard street, New York, states that she has been subject to Fits for many years, and has been restored to priect health (after every other means had failed) by the use of the Vegetable Extract.

to prect health (after every other means had failed) by the use of the Vegetable Extract.

Br. Charles A. Brown, of Dover, Russell co., Alabama, who is one of the best Physicians in the State, says that he has been much benefitted by the use of the Vegetable Extract, and that he unhesitatingly prescribes it in every case of Epilepsy which comes under his knowledge.

Curtis G. Mayberry, Esq., formerly Postmaster at Lime Mills, Crawford co., Pa., now living in Eric co., Pa., states that for many years past he has been sorely afflicted with Fits, and he is pow happy to state that by a persevering use of Dr. Hart's Vegetable Extract for a few months, has restored him to sound health, being entirely freed from that worst of all diseases.

FITS OF 27 YEARS AND SIX MONTHS CURED BY THE USE OF THIS TRULY WONDERFUL MEDICINE! USE OF THIS TRULY WONDERFOLD SIEDLESS:

Read the following remarkable case of the son of WILLIAM
SECRE, ESG., of Philadelphia, afflicted with Epileptic Fits 2;
years and 6-months. After travelling through England, Scotland,
Germany and France, consulting the most eminent Physicians,
and expending for Medicine, medical treatment and advice, three
thousand dollars, returned with his son to this country in November last, without receiving any benefit whatever, and was
cured by using

wember last, without receiving any benefit whatever, and was cured by using

HART'S VEGETABLE EXTRACT.

Mr. Wm. Secons's Letter to Doctors Ivans & Hart.—I have spent over three thousand dollars for Medicine and Medical attendance. I was advised to take a tour to Europe, which I did. I first visited England, I consulted the most en ment Physicians there in respect to his case. They examined him and prescribed accordingly. I remained there three months without receiving any change for the better, which cost me about two hundred and fifty dollars, pocketed by the physicians, and the most I received was their epinion that my son's cose was hopeless, and positively incurable. I secordingly left England, and traveled through Scotland, Germany and France, and returned home in the month of November last, with my son as far from being cured as when I left. I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract, seeing your statements and certificates of so many cures, some of twenty and thirty years' standing, and can assure you I am not sorry I did so, as by the use of Hart's Vegetable Extract alone, he was restored to perfect health. His reason, which was so far gone as to unfit him for business, is entirely restored, with the prospect now before him, of life, health and usefulness. He is now 28 years or age, and 27 years and 6 months of this time has been afflicted with this most dreadful of diseases; but thank God, he is now enjoying good health.

Now, gentlemen, faith without works I don't believe in. To say that I shall be ever grateful to you is one thing, and as I here enclose you one hundred dollars, I have no doubt but that you will think this another, and quite a different thing. The debt of gratitude I still owe you, but please accept this amount as interest on the debt in advance. Yours, very respectfully,

(Signed) WILLIAM SECORE.

Guilford, Oho, Oho, August 17th, 1846.

Brother laborer in the cause of Humanity:

Dear Sir:—It is with no small degree of pleasure that I am enabled to announce to you the complete triumph of your invaluable medicine in cases of Epic; sy. I have prescribed it in four instances in this vicinity, and it has been highly successful in all. Three of the patients. I trust, have been radically cured. The fourth one is rapidly improving, and will, I think without doubt recover. I am not in the habit of prescribing or recommending Patent Medicines, but when I see an article which promises so much for the relief of suffering humanity. I feel it my duty to recommend it; and I have no hesitation in saying, that as soon as the Faculty are fully acquainted with the real merit of your medicine, they will close their eyes against prejudice and lend you a helping hand.

I subscribe myself, yours, sincerely, (Signed)

### Bacon College.

THE Trustees of BACON COLLEGE take pleasure in announcing to its friends and patrons, that the sum of \$11,000 has been raised, by voluntary subscriptions, to liquidate the debt due by said Institution; that the Institution may now be regarded as free from all its embarrassments, and in possession of property necessary to its usefulness, which has cost about \$20,000, besides a nucleus for an endowment, consisting of near \$5,000 in Northern Bank Stock, \$2,000 in Road Stock, donated by individuals, and from \$7,000 to \$8,000 in subscriptions, annually falling due.

falling due.

They avail themselves of this occasion to tender to the friends and pations of the Institution their grateful acknowledgments for the timely aid which their liberality and philanthropy have afforded, and which has been the means of saving from entire loss, an institution which has already done much to advance the standard of Literature and Science, and to confer their blessings upon many, some of whom are meritorious and deserving, but unable, otherwise, to prepare themselves for future usefulness in an elevated sphere.

They take this occasion to say, that the doors of this Institu-tion have never been closed against the poor, because of their poverty. They sincerely hope that no necessity may ever exist

to compel a different course.

As BACON COLLEGE may now be regarded as permanent, we solicit for it the continued aid of all its friends. Send up your young men, and entrust them to our care. We will do what we can, so to form their characters and cultivate their minds, as to make them ornaments to society, a blessing to their parents, and rich legacies to the age in which they may live. order of the Board, at Harrodsburg, the 8th day of 848. #### No DO CO MILITARY INSTITUTE.

This Institution, created by an Act of the General Assawill be opened for the reception of Pupils,

On the 1st of March, 1847, under the immediate di-rection and entire control of a

Board of Visitors, Appointed by the Executive of the Commonwealth.

Appointed by the Executive of the Commonwealth.

I contemplates a Military Organization for Literary and Scientific purposes; an education eminently scientific and practical; the formation of regular habits, and the diffusion of a knowledge of Military Science.

Military duties will not be permitted to interfere with the pupil's progress in study, but will rather take the place of his unprofitable, and often, vicious play.

The course of study adopted, and which will be required in order to graduation, is that usually taught in the best Colleges, except that but one language is required, (Latin or French,) the time usually occupied by the second, being devoted to a more extended course in Mathematics, Natural Science and English Literature.

tended course in Mathematics, Natural Science and English Lit erature.

A Preparatory Department is organized in connection with the Institute, in which boys of any age are taken, and are subjected to the same Military discipline as the Cadets.

The position of the Institute, at the Franklin Springs, near Frankfort, Kentucky, (recently occupied by the Franklin Institute,) is admirably adapted in every respect to Academical pur poses; the locality being airy and healthy, the mineral waters salubrions, the buildings elegant, extensive and commodious, and entirely apart from the contamination and multiplied malign influences, which seem inseparable from a city or village residence.

The Institution is placed under the charge of Col. R. T. P. ALLEN, as Superintensently before the public, as a competent and successful teacher and governor of youth, by his honorable graduation at the United States Military Academy; his subsequent connection with the Army, and with the Engineering Service of the General Government, as Superintendent of public works; by his long experience as an Instructor, by his recent connection with the Transylvania University.

The Academic Year will be divided into two Sessions

of twenty one weeks each.

The first commencing on the 1st Monday in October, and the second on the 1st Monday in March. The only vacation occupying the months of August and September.

The month of July will be spent in an excursion tarough the State, for the better study of its Geology and of Natural Science generally.

State, for the better study of its Geology and of Natural Science generally.

Applicants for admission, on paying the charge of the Institute, and presenting a certificate of good moral character, will be admitted into the classes as their advancement may justify, and upon satisfactorily passing the next examination thereafter, will be entitled to a warrant of appointment, as Cadet, from the Governor. The uniform of the Cadets is plain and neat, and being of Kentucky Jeans, will greatly reduce the expense of their clothing.

Dr. Penney's Ague Pills.

In presenting the public with this remedy for the most troublesome of Western diseases, I am not unapprized of the opposition that it will at first meet; for the community has suffered much by the impositions and frauds practiced by the getters-up and venders of patent nostrums, specific remedies, and medicines professing to cure all diseases. So much have the people suffered from such infractions on their credulity, that it would seem foolish in any one, at this day, to introduce a specific for any Disease; but I do it, and do it too, sanguine of success. Having had ample opportunity to test the efficacy of the Ague Pills now presented to the public, I do assure it, that they have never failed to cure in one solitary case where the directions were strictly observed.

strictly observed.

They seem equally as well adapted to Agues of long standing as more recent ones. I could adduce a great many certificates in support of what has been said above, as regards their success; but that would swell, unnecessarily, this publication. A lew respectable witnesses are worth a host that are otherwise. See what Dr. John McRoberts, Druggist and Physician in Lawrenceburg, Kentucky, says, whose acquaintance with the Ague Pills is better than that of any other person. LAWRENCEBURG, Ky., Oct, 1847.

This is to certify, that I have been selling Penney's Ague Pills, as local Agent for this place since some time last spring; and in every solitary instance that has come to my knowledge, they have succeeded in curing the Chills and Fevers. I heartily recommend them to the public, as a remedy every way worthy of confidence. CAMDEN, ANDERSON COUNTY, Ky., Oct. 1847.

This is to certify, that I have been acting as Dr. J. E. Penney's local Agent at this place, in selling his Ague Pills; and in no case have they failed to cure, where the directions have been followed ELIJAH ORR. This is to certify, that my grand daughter was afflicted with Chilis and Fevers last spring. I procured one box of Penney's Ague Pills, and gave them by the directions; she was promptly and effectually cured. Some of my neighbors have used them with like success.

DAVID EGBERT.

Anderson County, Ky., Oct. 1847. This is to certify, that last spring my wife and self were both severely afflicted with Chills and Fevers. I procured two boxes of Dr. Penney's Ague Pills; we took them by the directions, and neither one of us had another Chill after we commenced their use. Some of my neighbors have also used them, and, so far as my knowledge extends, with complete success.

JAMES EGBERT.

LAWRENCEBURG, Ky., Oct. 1847.

This is to certify, that I had a gentleman in my employ wh had been for some time afflicted with Chills and Fevers. H procured and used one and a half boxes of Dr. Penney's Agu Pills, which effectually cured him. Given under my hand, &c. J. G. WHITE.

Any person taking two of the boxes by the directions, and no being cured of the Ague, my Agents are authorized to refund his money; but in no case will the money be refuneed, unless the Agent is satisfied that the directions have been strictly followed and at least two of the boxes taken. One box will cure five or of six cases
